

STREAMLINE
BRASS PRODUCTS

Crafted with Absolute Precision

**Manufacturers of Precision Metal
Components & Fittings**

Established Since 20 Years, Streamline Brass Products is a leading manufacturer and supplier of precision metal components and fittings.

We not only believe in producing the products as per our company product range but we also produce products as per customer customization with competitive prices, better quality and on committed delivery time. Our products are highly appreciated for its superior quality and durability. Our products are widely used in numerous applications and cater our best services to many industries.

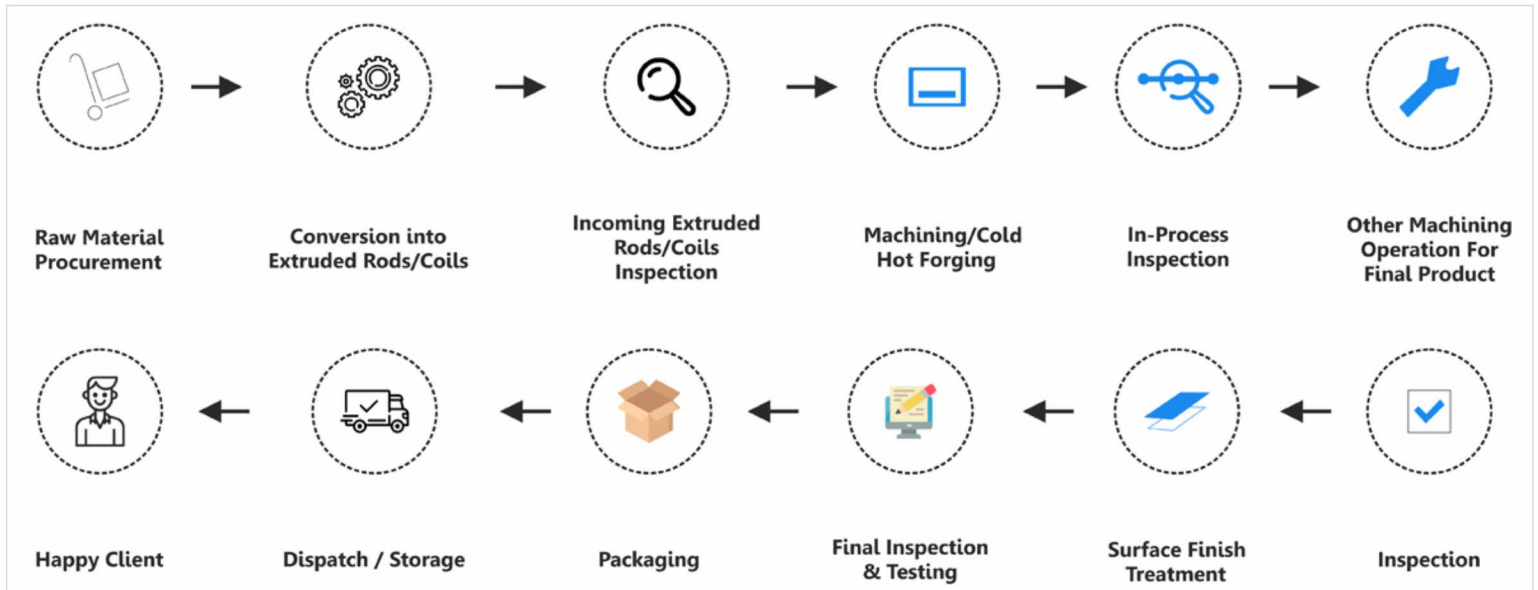

Over 20+ Years we have continuously upgrade our systems and technology to provide our customers with best quality at competitive rates. We give our customer excellent technical support through out the manufacturing process to ensure very best possible products.

Precision Performance, Unmatched Quality

Our company is a value driven organization based on the strong foundations of reliability, innovation and pioneering technology working towards the ultimate core focus of maximizing highly delighted customers worldwide. We believe in quality, honesty, transparency and are committed to produce high quality components as per client's Drawings, Samples or Standard reference.

Manufacturing Process

Manufacturing processes involve converting raw materials or components into finished products. The methods vary widely, depending on the product's complexity, materials, and production volume.

Customer Satisfaction Is Our Priority

We believe in respecting and having faith in our customers. We grow through creativity, invention, and innovation. Our core values include integrating honesty, integrity, and business ethics into all aspects of our business.

Our Mission

01

To continuously strengthen & upgrade our manufacturing processes, quality systems and people competencies by training, educating and providing a safe work place.

Our Vision

02

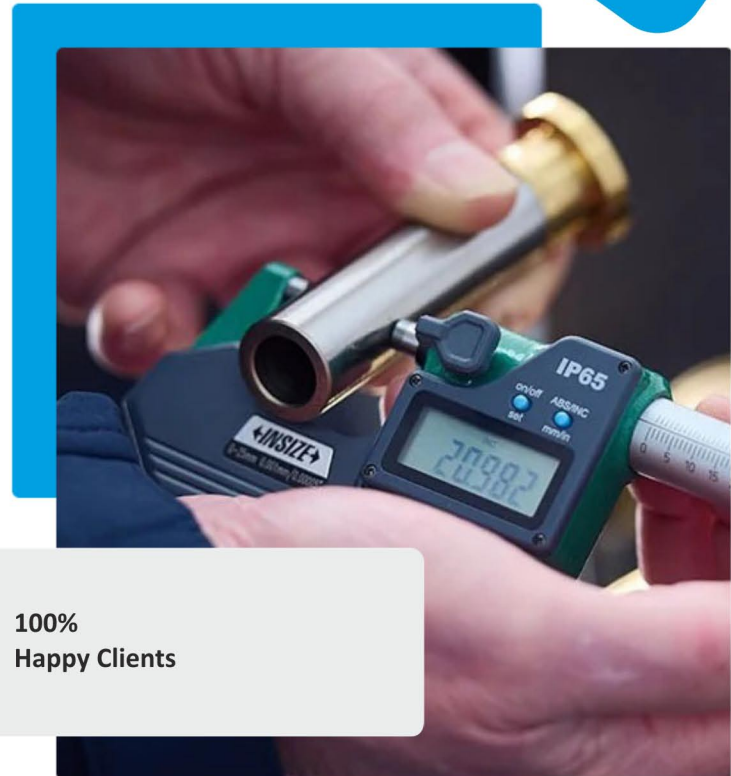

To continuously strengthen & upgrade our manufacturing processes, quality systems and people competencies by training, educating and providing a safe work place.

Continuous Improvement Is Our Commitment. Zero Defects, Our Target.

We always strive to provide our customers best quality products with zero compromise and 100% satisfaction. We constantly monitor all our process to see to it that all our customers get complete satisfaction from our side in terms of product quality, delivery and even after sales services. We strictly adhere to stringent quality management systems in order to facilitate an error free production from every stage. Our entire manufacturing process is monitored by a team of well professionals having years of experience behind them. A team of trained supervisors and quality control inspectors ensures that the quality is maintained at all the stages of production.

- ✓ ISO 9001:2015 Certified Company
- ✓ 20+ Years of Experience
- ✓ Modern & Innovative Infrastructure
- ✓ Skilled & Dedicated Team Members

100%
Happy Clients

Quality Control

Health & Safety of all the employees is utmost importance at Infinity International. We aim to eliminate, control or reduce the workplace hazards & associated risk of illness or injuries to the employees, customers, contractors & all those who might be affected by our business activities.

Health & Safety Policy

Health & Safety of all the employees is utmost importance at Infinity International. We aim to eliminate, control or reduce the workplace hazards & associated risk of illness or injuries to the employees, customers, contractors & all those who might be affected by our business activities.

Instrument & Gauges

Instruments are heartbeats of industry. To assure good quality of products, quality instruments are required. Company has invested a good amount to have all type of measuring equipments including all instruments and gauges.

Quality Inspection

Company has unique inspection facility to achieve the goal to zero defects and rejection of any products manufactured. Well experienced and regularly trained technocrat engineers, carry out the inspection on each individual product.

Packing & Forwarding

After inspection, each order is directed to a particular packing location. The completeness of whole order can be checked here optionally. Then the packing list gets printed and the whole order is packed and dispatched.

Brass Precision Components

We are leading manufacturer of Brass Precision Components providing customized products to achieve the desired specialization in the production of parts. These components are widely used in Engineering, Aerospace, Medical, Agricultural, and Machine Tool Industries. We are well known in the market for our various excellent products. We manufacture these components as per client's customized requirements. We manufacture these parts using high-grade raw materials like steel, stainless steel, brass, copper, aluminium and many more as per the industrial standards and customer specifications.

Brass CNC & VMC Components

CNC components are widely used for general fabrication, milling, fastening, machining, and other procedures due to their high reliability and durability. They are available in a variety of dimensions and are completely abrasion-resistant. The range of CNC & VMC components are manufactured as per industry standards and norms. We always provide quality-approved CNC & VMC components to our respected clients. We ensure that our entire range of CNC & VMC components is rigorously tested before final delivery to clients. They are always available in flexible sizes, dimensions, and shapes.

Brass Electrical Components

We are manufacturing all kinds of Brass Electrical Components and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Electrical Components, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

Brass Automotive Parts

We are committed to manufacturing optimum quality and a wide range of Brass Auto Parts as per customer's specifications. Our brass auto parts are commonly used for different automobile and automotive applications. The range of Brass Auto Parts can also be used freely for different industrial application from automobiles to construction industries. Our experts make sure that our products suit perfectly to your complex project requirements. The Automobile Components are made of superior grade brass and other raw material in different sizes and range to meet the exact demand of our customers.

Brass Moulding Inserts

The wide range of Brass Inserts include threaded moulding inserts, ultrasonic moulding inserts, knurled moulding inserts, moulding inserts for plastic, wood moulding inserts and more. The range of standard and high quality brass moulding inserts are designed to be molded into the plastic, wood or any molded components. The brass used in the manufacturing of these Inserts is of optimum quality that ensures high durability, tensile strength and resistance to corrosion.

Brass Fittings

Brass is widely used in manufacturing brass fittings, plumbing fittings, flare fittings, garden hose fittings, compression fittings, transmission fittings, pipe fittings & threaded fastening, due to its excellent qualities as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility. The main key feature of brass Fittings is its excellent corrosive resistance, and also its plating, joining, polishing and finishing characteristics. Each brass fitting design use for specific application and purpose. Depends on the operation, specific Brass Fittings are used to join or connect two components or parts in industrial applications.

Brass Forging Components

We are specialized in Manufacturing of Brass Forging Components. We can Manufacture any type of Brass Forging Components, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly. We have a Unique Manufacturing Facility to develop Brass Forging Components as per customer's designs and requirements.

Brass Fasteners

We provide High-Quality Brass Fasteners with variety of types. Generally, Fasteners are hardware components that mechanically joins two or more elements together. Brass Fasteners are easily removable without any damages the joining components. They are made from brass, mild steel, stainless steel and other material composition. Brass Fasteners are defined various types such as Screw, Washer, Anchor, Nuts, Rivets, Inserts, Bolts and many more.

Brass Customized Parts

Brass Customized Parts are widely used for general fabrication, milling, fastening, machining, and other procedures due to their high reliability and durability. They are available in a variety of dimensions and are completely abrasion-resistant. Our customized components are precisely designed and engineered by our skilled professionals, who employ cutting-edge techniques and high-quality raw materials. The range of these metal components are manufactured as per industry standards and norms. We always provide quality-approved components to our respected clients. We ensure that our entire range of customized metal components is rigorously tested before final delivery to clients. They are always available in flexible sizes, dimensions, and shapes.

CNG & LPG Parts

We Manufacture and Export Brass Gas Fitting Parts : Male - Female Elbow, Flare Female Elbow, Single Barb Elbow, Flare Male Elbow, Gas Fitting Connectors, Barb T - 3 way, Compressor Female Elbow, Compressor Male Brand - T, Flare Equal Elbow, Gas Fittings Plug, Compressor Male elbow, Equal T, Compressor Union T, Force Barb - T, Brass Canteen Burner Valves, Main Line Shut off Valves, Brass Needle Control Valves, Brass F Valves, Straight Nozzle Valve, Brass Non Return Valve, Brass Lpg Cylinder Valve Fittings, Brass Gas Valve, Brass LPG Equipments.

Sensor Parts

We are leading manufacturer of Sensor Parts, offering a wide range of Sensor Metal Parts including Frequency Sensor Parts, Sensitivity Sensor Parts, Proximity Sensor Parts, Temperature Sensor Parts and Sensor Housing which are used in Automobiles, Electrical Equipment & Home Appliances. Sensors Parts are widely used for liquid level & distance measurements. Sensor Parts are made out of high-quality metal sourced from the trusted market sources. We are offering these Sensors Parts to our clients at market leading prices.

EV Auto Parts

We are specialized in manufacturing and customizing any kind of EV Automobile Parts as per customer requirements. We are using excellent quality raw materials and advanced technology to ensure the high durability and anti-corrosive property of automobile parts. Our offered range of EV Automobile Parts are widely appreciated by customer in domestic as well as international market for its accurate dimension, precious design, high performance and flawless finish.

SS Components

We Manufacture Stainless Steel Components, Stainless Steel Machine Components, Customized Stainless Steel Components, etc. Our products are known in the market for their superior varieties and durability. These are widely appreciated for their sustainability, reliability and precise designs. We ensure the most reliable products which are available in the best specification at the most profitable price range. Our products use in many industries like Automotive, Material Handling, Textile Industry, Medical & Engineering Sectors.

Aluminium Components

Aluminium Components are used in the automobile, electrical, electronics, mechanical, telecom and plastic industries. Owing to their high corrosion resistance and optimum finish, Aluminium Components are widely demanded in the market. As all our products are developed using technologies best suited to the latest industrial applications and consumer demands, they are known for exhibiting rich attributes. Aluminium Components are known for Rugged Construction, Assuring Proper Fitting, Durability, Outstanding Performance and Low Maintenance. These Aluminium Components are available in different sizes and configurations in the market as per customer requirements and specifications.

Copper Components

We manufacture and export a wide range of Copper Components including Copper Machined Components, Copper Turned Components, Copper Forged Components, Copper Casting Components, Copper Stamping Components, Copper Fasteners and more. Copper Can be machined, stamped, forged, cold-headed for manufacturing any type of components. Copper Components are widely used in electrical wiring, electronics, power generation, mechanical, transmission, telecommunication, automotive, and automobile applications. A wide range of Copper Turned Components is available in various sizes, shapes, types, coatings and other configurations based on customer specifications and requirements.

INDUSTRIES WE SERVE

We provide services to a diverse range of sectors and have tailored our offerings to meet their specific needs. We have adapted our services to suit a range of different industries. The following list includes few of the industries we service.

Automotive

Electrical

Oil & Gas

Power

Fittings

Solar

INFRASTRUCTURE

Our state-of-the-art infrastructure is a testament to our commitment to providing high-quality products and services to our customers. We have invested in the latest automatic machinery, which is segmented into different divisions to ensure smooth and hassle-free working. Our manufacturing area spans over 35,000 square feet and is segmented for each area of operation, equipped with modern machinery and tools. The infrastructural facilities are also equipped with sophisticated packaging equipment and machinery to ensure quality packaging that ensures safety of products during transit and delivery. We not only prioritize quality production but also contribute to a greener and more sustainable future. Our dedication to environmental stewardship reflects our holistic approach to responsible and forward-thinking manufacturing.

CAPABILITIES

Sr No.	Type of Machine	Machine Capacity
1.	CNC TURNING ACE - JOBBER JUNIOR	350/250
2.	CNC TURNING ACE - J300	350/250
3.	HASS VF2	800/500/500
4.	HASS VF2 4 AXIS	800/500/500/210
5.	COSMOS CVM	600/400/400
6.	COSMOS DRILL TAP 4 AXIS	650/400/400/210
7.	AUTOMATIC	10 - 32 MM ROD
8.	AUTOMATIC	5 - 11 MM ROD
9.	AUTOMATIC DIE BOX	AS PER ROD SIZE
10.	AUTOMATIC THREAD MACHINE	AS PER ROD SIZE
